- - - -

2. I have discussed with [redacted] AD/Personnel, the question of increase in salaries for senior CIA officials, particularly in the light of past Congressional actions, and what steps would be necessary for legislation of this sort. [redacted] will discuss the basic problem with the DCI at their next meeting.

25X1A 3. The case of [redacted] has been called to my attention. [redacted] received a full clearance for OCD in October 1953, but he was not employed due to a reduction in T/O in January 1954. The case was reopened in June 1954 in connection with the expressed interest of Congressman Richard M. Simpson (R., Pa.), and [redacted] entered on duty on 25 October 1954. In view of certain information which then developed through Security interview following EOD, [redacted] resigned effective 8 November 1954. As Cong. Simpson had not been informed of the EOD, we will take no further action in this case unless the Congressman's office inquires as to the reasons for resignation.
